

WANTELCO

S.A. DE C.V.

We are a Mexican company with a robust offer of technological solutions to promote the digital transformation of companies, Neutral infrastructure provider for national and international operators, interconnection to data centers and content providers.

Wantelco has an active network in 6 cities of the Mexican Republic.

The Wantelco Backbone is based on a fiber optic network that is illuminated with DWDM and SDH equipment, with more than 1000 km of length.

The Internet network is currently supported by a 3-layer architecture (core, distribution and access) with IP nodes in the main cities of Querétaro (several nodes), San Luis Potosí, Jalisco, Hidalgo Michoacan and Chihuahua.

Advantage

99.1% Written service guarantee (SLA).
Infrastructure and network 100% ours.
24*7 service desk, immediate response time.

Solutions

Our extensive fiber optic network, operating experience and high quality standards allows Wantelco to offer a reliable infrastructure.
